CLIMATE-CONTROLLED FOR CAMPER COMFORT
DISPLAYS COLEMAN CAMP LOGO

CHALLENGE

- Build an open-span indoor recreational center for soccer, football, and other activities at Coleman Country Day Camp.

SOLUTION

- Arizon designed, manufactured and installed a climate-controlled air supported building over a turf field that feature an energy-efficient mechanical system and translucent fabric to take advantage of natural daytime lighting.
- The structure also feature the Coleman Camp logo on the building's entry way.

RESULT

- Among its other attractions, Coleman Country Day Camp now offers an indoor turf field as additional recreation space for kids to play soccer, football, lacrosse and other sports, rain or shine, in an Arizon dome.
- The building is labeled with a banner featuring Coleman Camp's Western-style typeface to seamlessly integrate into the camp's overall layout.
- The dome is used during rainy days in summer and for games, leagues and tournaments in winter, providing a year-round stream of revenue for the Long Island-based day camp.
