WAGNER'S LANES EAU CLAIRE, WI

APPLICATION:.....SAND VOLLEYBALL
SIZE:.....88'W x 200'L x 35'H (17,600 SQ FT)
FEATURES:.....ARIZON'S CUSTOM SKYLIGHT FEATURE
TIKI HUT STYLE BAR INSIDE OF DOME
SPEAKER SYSTEM FOR ENTERTAINMENT

CHALLENGE

- Design and construct a seasonal air-supported building to enclose existing outdoor sand volleyball courts and a two-story bar and seating area at a popular bowling alley.
- The Wisconsin climate had prevented Wagner's Lanes from generating revenue from sand volleyball leagues during the winter, while most night leagues were completely full in the summer.

SOLUTION

- Arizon designed a seasonal air-supported building to enclose their courts and a two-level bar.
- Including the bar was very important to Wagner's Lanes so the players and spectators did not have to leave the dome for drinks or goods.

RESULT

- Customers and patrons are very happy with the final product and the customer is now able to extend their leagues year round which bring in more revenue for their business.
- The client hosts many events in the space, including black light volleyball and concerts. They are able to project on the fabric of the structure to make an even more elaborate display for patrons.
