

BUILDING ATTACHMENTS BUILD-OUTS

BUILD-OUTS

INTERIOR BUILD-OUTS

Many Arizona buildings feature interior build-outs to house a wide variety of amenities as an alternative to constructing separate brick-and-mortar structures to house these areas outside of the dome. Because the dome already provides shelter from precipitation and extreme temperatures, these interior build-out areas can be simple and cost-effective and do not require costly features such as a traditional roof or separate HVAC system.

POPULAR USES INCLUDE:

- Lobby and Reception Areas
- Office Spaces
- Restrooms and Changing Rooms
- Concession Stands
- Lounges
- Batting Cage/Tee Station Tiers
- Elevated Viewing and Seating Decks
